PROFESSIONAL SUMMARY

Data Analyst experienced in analyzing 60K–100K+ records to uncover revenue drivers, pricing impact, and customer behavior. Skilled in SQL, Python, and Power BI to deliver data-driven insights and improve reporting efficiency. Focused on solving business problems related to revenue, margins, and customer performance.

KEY PROJECTS

Regional Sales Performance & Profitability Analysis

- Analyzed 64K+ transactions across 5 years to identify key revenue and margin drivers
- Performed correlation analysis to evaluate relationship between pricing and profitability
- Identified pricing as primary profit lever, with potential to improve margins by ~8–12% (scenario analysis)
- Detected margin leakage from high-discount products and regional pricing inefficiencies
- Built Power BI dashboard tracking revenue, margin %, and pricing impact, enabling identification of pricing inefficiencies and margin leakage

Tools: SQL, Python, Power BI

Customer Shopping Behavior & Segmentation Analysis

- Analyzed 3.9K+ transactions to identify purchasing patterns and revenue distribution
- Identified repeat customers as primary revenue drivers, supporting retention strategies
- Discovered higher AOV among express shipping users and subscribers
- Built dashboard to track and analyze customer segments and revenue trends

Tools: SQL, Python, Power BI

PROFESSIONAL EXPERIENCE

Data Analyst Intern (Project-Based), Full Stack Academy

01/2025 – 05/2025

Hyderabad

- Analyzed datasets (50K–200K rows) to answer business questions on revenue and retention
- Built advanced SQL queries (CTEs, joins, aggregations, window functions) for insight extraction
- Cleaned and validated data, reducing inconsistencies by ~30%
- Built Power BI dashboards enabling tracking of revenue and customer KPIs, improving visibility into performance trends and decision-making
- Automated reports using SQL & Excel, reducing manual effort by ~40%

EDUCATION

Bachelor of Engineering in Computer Science (Data Science), Osmania University

2020 – 2024

Hyderabad, Telangana,
India

TECHNICAL SKILLS

Programming & Tools

- Python (Pandas, NumPy)
- SQL (PostgreSQL, CTEs, Joins, Window Functions)
- Power BI (DAX, Data Modeling - Star Schema)
- Excel (Pivot Tables, XLOOKUP, Automation)
- Git, Jupyter Notebook

Analytics & Concepts

- Data Cleaning & Validation
- Exploratory Data Analysis (EDA)
- KPI & Revenue Analysis | Correlation Analysis | Basic Regression
- Dashboarding & Data Visualization
- Business Insights & Reporting
